

# Bucket Fact Sheet

## Who We Are:

Established in 2014 and winners of Quito's tourism innovation competition, Bucket was created to increase access to tourism in developing cities. In order to do this, we create partnerships with the top attractions in each city, providing technologically accessible, discounted, convenient ways to travel the world.

## What We Do:

Bucket combines entrance tickets to the top attractions in each partner city, offering one Bucket Pass with full access to each attraction at a discounted price. Travelers around the world can purchase the pass online or by mobile device. Our app also features attraction information and tips.

## How It Works:

Step One: Buy Quito's Bucket Pass online, at the Tienda del Quinde, or through our app before or during your trip and receive tickets to the top five attractions in Quito.

Step Two: After purchase, your ticket will be accessible through email or digital PDF download for printing. Bring your mobile or physical pass to the ticket box for entrance. Screenshot your ticket for ensured ticket access without Internet access.

Step Three: At the ticket box, show a copy of your ID or passport for verification. Your name and country of origin must match that of your ID. But keep your ticket, because this will grant you access to all attractions.

### Facts

Established in Ohio  
First City is Quito, Ecuador  
Started in 2014  
Launching on July 23<sup>rd</sup>, 2015
